# TENTS

### FRAME TENTS

Frame tents are ideal for nearly every occasion and can adapt to most settings. Frame tents require fewer poles than traditional tent styles allowing for maximum usable space inside the tent.

### HIGH PEAK TENTS

The look of a pole tent with the functionality of a frame. Known also as “cross cable,” or “high peak,” these tents offer an elegant profile. Peaks are created with tension from cables pushing up on a center mast, allowing for abundant usable space underneath the tent.

### POLE TENTS

The catenary design enables beautiful swooping lines, yet allows for a smooth finish to the fabric.

### SAILCLOTH TENTS

Our sailcloth tent has rounded ends, and a translucent top, putting it in a class of its own. They diffuse natural sunlight and glow in the evening as warm light emanates from inside
